RESIDENTS MUST PUT  
COVERS OVER GARBAGE  
CONTAINERS THEY OWN

Sanitary Inspector Shepherd insists That City Ordinance Be Observed; Summer and Fly Time Make Action Necessary.

That the residents of Bisbee must observe the city ordinance is regard to the covering of garbage receptacles is the edict which has gone forth from the sanitary department. With the arrival of summer weather and the proportionate number of flies the necessity of protecting the garbage cans.

Sanitary Inspector Shepherd called attention to the fact that the ordinance carries a substantial fine for the breaking of it. The Inspector associated that diligence would be used in the future and that people who continued to leave their containers without covers would be prosecuted and, if convicted, fined.

The sanitary condition of Bisbee, at the present time, is very good. The usual conditions of unhealthiness and dirt, at this season, are lacking and with an improvement in the garbage conditions there can be little room for complaint in any quarter.
